Dark Signal - Project Documentation

Overview

Dark Signal is an educational phishing simulation platform with a React frontend and FastAPI backend.
It provides user/scenario management, analytics, audit logging, and report exports.

File-by-file Description

.vscode\settings.json
- Configuration or metadata.

COMPLETION_REPORT.md
- Documentation or notes.

DOCUMENTATION_INDEX.md
- Documentation or notes.

FILE_INVENTORY.md
- Documentation or notes.

IMPROVEMENTS.md
- Documentation or notes.

PROJECT_COMPLETION.md
- Documentation or notes.

QUICK_START_VISUAL.md
- Documentation or notes.

README.md
- Documentation or notes.

VISUAL_ENHANCEMENTS_COMPLETE.md
- Documentation or notes.

VISUAL_GUIDE.md
- Documentation or notes.

VISUAL_OVERVIEW.md
- Documentation or notes.

backend\.env
- Project file.

backend\app__init__.py
- Backend logic or support module.

backend\app\api__init__.py
- Backend logic or support module.

backend\app\api\analytics.py
- Backend logic or support module.

backend\app\api\auth.py
- Backend logic or support module.

backend\app\api\deps.py
- Backend logic or support module.

backend\app\api\events.py
- Backend logic or support module.

backend\app\api\scenarios.py
- Backend logic or support module.

backend\app\api\schemas.py
- Backend logic or support module.

backend\app\api\stats.py
- Backend logic or support module.

backend\app\api\stats_schemas.py
- Backend logic or support module.

backend\app\api\users.py
- Backend logic or support module.

backend\app\api\websocket.py
- Backend logic or support module.

backend\app\core__init__.py
- Backend logic or support module.

backend\app\core\config.py
- Backend logic or support module.

backend\app\core\logging_config.py
- Backend logic or support module.
backend\app\core\rbac.py
- Backend logic or support module.
backend\app\core\security.py
- Backend logic or support module.
backend\app\core\security_middleware.py
- Backend logic or support module.
backend\app\db\base.py
- Backend logic or support module.
backend\app\db\indexes.py
- Backend logic or support module.
backend\app\db\session.py
- Backend logic or support module.
backend\app\db\utils.py
- Backend logic or support module.
backend\app\main.py
- Backend logic or support module.
backend\app\models__init__.py
- Backend logic or support module.
backend\app\models\event.py
- Backend logic or support module.
backend\app\models\scenario.py
- Backend logic or support module.
backend\app\models\user.py
- Backend logic or support module.
backend\app\services__init__.py
- Backend logic or support module.
backend\app\services\audit.py
- Backend logic or support module.
backend\app\services\feedback.py
- Backend logic or support module.
backend\app\services\scoring.py
- Backend logic or support module.
backend\requirements.txt
- Text or environment configuration.
backend\scripts\list_users.py
- Backend logic or support module.
backend\scripts\manage_migrations.py
- Backend logic or support module.
backend\test.db
- Project file.
backend\uvicorn.err.log
- Project file.
backend\uvicorn.log
- Project file.
backend\verify_env.py
- Backend logic or support module.
docgen.py
- Backend logic or support module.
docs\ethics-and-consent.md
- Documentation or notes.
docs\evaluation-metrics.md
- Documentation or notes.
docs\mitre-mapping.md
- Documentation or notes.
docs\threat-model.md
- Documentation or notes.
export-test.pdf

- Project file.
frontend\api-tester.html
- Static HTML page or demo file.
frontend\dashboard.html
- Static HTML page or demo file.
frontend\index.html
- Static HTML page or demo file.
frontend\package-lock.json
- Configuration or metadata.
frontend\package.json
- Configuration or metadata.
frontend\src\App.css
- Styling file.
frontend\src\App.jsx
- Frontend logic or component file.

frontend\src\components\Header.css
- Styling file.
frontend\src\components\Header.jsx
- Frontend logic or component file.
frontend\src\components\ProtectedRoute.jsx
- Frontend logic or component file.
frontend\src\components\StatCard.jsx
- Frontend logic or component file.
frontend\src\components\Stats.css
- Styling file.
frontend\src\context\AuthContext.jsx
- Frontend logic or component file.
frontend\src\context\ThemeContext.jsx
- Frontend logic or component file.
frontend\src\index.css
- Styling file.
frontend\src\main.jsx
- Frontend logic or component file.
frontend\src\pages\Analytics.css
- Styling file.
frontend\src\pages\Analytics.jsx
- Frontend logic or component file.
frontend\src\pages\Dashboard.css
- Styling file.
frontend\src\pages\Dashboard.jsx
- Frontend logic or component file.
frontend\src\pages\Login.css
- Styling file.
frontend\src\pages\Login.jsx
- Frontend logic or component file.

frontend\src\pages\Scenarios.css
- Styling file.
frontend\src\pages\Scenarios.jsx
- Frontend logic or component file.
frontend\src\pages\Settings.css
- Styling file.
frontend\src\pages\Settings.jsx
- Frontend logic or component file.
frontend\src\pages\Users.css
- Styling file.
frontend\src\pages\Users.jsx
- Frontend logic or component file.
frontend\vite.config.js
- Frontend logic or component file.
frontend\websocket-demo.html
- Static HTML page or demo file.
test.db
- Project file.
